SUMMARY
Data engineer who builds reliable pipelines for logistics and insurance analytics.

EXPERIENCE
Senior Data Engineer - Halcyon Freight (Mar 2021 - Present)
- Maintain Airflow pipelines that load shipment data into Snowflake.
- Reduced nightly load failures from 9 per month to 2 per month by adding data quality checks.
- Mentored two junior engineers.

Data Analyst - Brightwell Insurance (Jul 2018 - Feb 2021)
- Built weekly claims dashboards in Tableau for the operations team.
- Wrote SQL models that the pricing team used for monthly reporting.

EDUCATION
BSc Mathematics, University of Leeds, 2018

SKILLS
Python, SQL, Airflow, Snowflake, Tableau, dbt, Git
